Gov. [Rick Scott](#) was in Flagler County Tuesday to highlight the 100 new jobs Coastal Cloud LLC is creating over the next three years.

Coastal Cloud, a computer service company and subsidiary of Graphene, is investing \$3.1 million to move its corporate headquarters to Florida and build 30,000 square feet of office space, according to a news release.

The new facility will be used for providing analysis, programming and training to small and large companies seeking to expand and optimize their current operations.

"When we decided to expand our company, we had many options — but, we liked what Florida had to offer. Florida is a business friendly state with a superior workforce and quality of life that cannot be matched. We are excited to expand and grow in the Sunshine State," said [Sara](#) and [Tim Hale](#), president and vice president of Coastal Cloud.
